ECONOMY AND POLITICS

Irina: Reuters: Weekly attacks on oil tankers in Strait of Hormuz reach highest since US-Iran war began

IRINA · SINGLE SOURCE

Reuters reports at least 12 attacks on oil tankers in the Strait of Hormuz between September 28 and October 5, the highest weekly total since the conflict began in February. This surge in maritime incidents threatens global oil supply routes and escalates tensions in a critical geopolitical chokepoint.

RT News: Europe is in revolt as leaders prepare for war while citizens face housing and job crises

RT NEWS · SINGLE SOURCE

RT News reports that mounting domestic problems like housing shortages and job insecurity are driving protests across Europe, while governments prioritize military spending and war preparations. This disconnect between leadership priorities and public needs is fueling social unrest in France, Spain, and Germany.

RT News: Three years of the Gaza war reveal a lack of accountability for atrocities and the failure of international law

RT NEWS · SINGLE SOURCE

RT News argues that the brutality Palestinians suffer and the impunity of perpetrators demonstrate that international law is ineffective. The article claims that initial reports of atrocities on October 7 were lies used to justify a genocidal campaign, while the resistance operation was a legitimate act of armed struggle.

r/ClaudeAI: User discovers potential new planet using Claude Code

R/CLAUDEAI · SINGLE SOURCE

A user analyzing NASA's TESS telescope data with Claude Code discovered a potential planet about 116 light-years away that dims a star every 3.18 days. The candidate planet is about 1.4 times Earth's size. The analysis used Claude Code with Opus 5.5 and Fable 5.1, resulting in 74 separate analyses and 1,000+ scripts. The user published predictions before new TESS observations to make the finding falsifiable.

┃ *"Is this a planet?"*
