El Ojo Noticias: Iran maintains LNG and aviation fuel exports despite US naval blockade

EL OJO NOTICIAS · SINGLE SOURCE

Maritime intelligence data cited by Reuters recorded the departure of at least eight tankers with 4.1 million barrels of Iranian LNG from the Gulf of Oman since mid-July. Another vessel delivered Iranian aviation fuel to Myanmar in September. The exports were integrated into ship-to-ship transfer operations off Oman by other Gulf producers, with most shipments heading to Malaysia for further transfers, likely destined for China.

r/ClaudeCode: Claude writes 90% of its own code, with new review process

R/CLAUDECODE · SINGLE SOURCE

The Claude Code team implemented a new review process after Claude began writing most of its code. PRs with real review comments increased from 16% to 54%, while those needing 5+ review rounds dropped from 8.9% to 1.5%. Low-risk changes can now merge without human approval after passing automated checks.

Bloomberg Technology: EV factories shift to grid batteries as demand weakens

BLOOMBERG TECHNOLOGY · SINGLE SOURCE

Factories built for America's electric vehicle boom are repurposed to make batteries for the power grid as EV demand weakens and electricity demand from data centers grows. Battery makers are shifting toward stationary storage, though the new market still depends on federal incentives and partly on Chinese supply chains.
