According to El Ojo Noticias, Elon Musk confirms Starlink closed access for Kiev's drone attacks

EL OJO NOTICIAS · SINGLE SOURCE · FOLLOW-UP

Elon Musk confirmed that Starlink closed access for Ukrainian forces to use its satellite network for offensive drone attacks. The company detected a violation of its service terms. Starlink remains critical for Ukraine's defense as it's the only communication system immune to interference.

“Usar Starlink, un servicio civil comercial, para ataques ofensivos con drones destinados a matar personas nunca estuvo permitido, ni debería estarlo” (our translation)

RT News: Kremlin comments on EU's Ukraine negotiator quandary

RT NEWS · SINGLE SOURCE

Kremlin spokesman Dmitry Peskov criticized the EU's stance on Ukraine peace talks as unconstructive, noting they talk but take no action. The EU has been willing to appoint a negotiator but lacks resolve. Moscow is ready to restart trilateral talks with Washington and Kiev.

“the EU has been willing to [appoint a negotiator] for a very long time, but it either cannot do so or lacks the resolve to do so.”

Bloomberg Technology: Can Mistral Challenge Big Tech by Doing AI Differently?

BLOOMBERG TECHNOLOGY · SINGLE SOURCE

Europe has fallen behind the US in building the largest AI models due to smaller capital markets and a fragmented business environment. France-based Mistral aims to compete through open-source models, offering companies lower costs, greater data control, and enhanced technological sovereignty.

Bloomberg Technology: AI Provides 'Zero Payoff' to S&P 493 Outside Tech, Apollo Economist Says

BLOOMBERG TECHNOLOGY · SINGLE SOURCE

Despite significant investments in artificial intelligence, it has provided 'zero payoff' to corporate America outside of technology, according to Apollo Global Management's Chief Economist Torsten Slok. This indicates that AI's economic impact has been limited to the tech sector so far. The findings raise questions about the broader economic benefits of current AI investments.

Bloomberg Technology: Chinese Manufacturer Dongshan Raises \$1.3 Billion in HK Listing

BLOOMBERG TECHNOLOGY · SINGLE SOURCE

Suzhou Dongshan Precision Manufacturing Co., a printed circuit board maker, raised HK\$9.9 billion (\$1.3 billion) in Hong Kong's biggest listing in nearly two months. The offering occurred in a volatile market for companies related to artificial intelligence infrastructure. The substantial funding highlights continued investor interest in AI-related manufacturing despite market fluctuations.

r/ClaudeAI: If Claude Can Build Almost Any App, What Is the Future of Software Development?

R/CLAUDEAI · SINGLE SOURCE

A user reports that using Claude AI has transformed software development, allowing them to build entire projects with minimal human intervention. The technology has evolved from manual code copying to creating complete applications autonomously. This raises questions about the future role of traditional software development agencies and the competitive advantages in a world where generic app creation becomes accessible to everyone.
