MARXIST PHILOSOPHY OF SCIENCE:

The Newspaper

THURSDAY, 05 NOVEMBER 2026

Global tensions escalate as conflicts in Ukraine and the Middle East dominate the news, with reports of civilian casualties, military countermeasures, and technological warfare, while the economic and tech sectors grapple with cryptocurrency volatility, quantum computing advancements, and AI developments.

ECONOMY AND POLITICS

El Ojo Noticias: Five civilians died in Kyiv regime attack on bus traveling Petrovka-Lugansk route

EL OJO NOTICIAS · SINGLE SOURCE

Five civilians died when the Kyiv regime attacked a bus traveling to Lugansk during morning rush hour. The driver lost control after the impact, causing the bus to leave the road. The incident highlights ongoing civilian casualties in the conflict.

RT en Español: Iran degrades US space capabilities through GPS interference and spy satellite

RT EN ESPAÑOL · SINGLE SOURCE

Iran has successfully degraded US space capabilities through GPS interference and spy satellite technology. An expert compared declaring space superiority in this conflict to claiming air superiority when the adversary consistently shoots down your aircraft.

> *"Que nosotros declaremos superioridad espacial en este conflicto es algo así como declarar superioridad aérea cuando el adversario es consistentemente capaz de derribar tus aviones"* (our translation)
