MARXIST PHILOSOPHY OF SCIENCE:

The Newspaper

TUESDAY, 17 NOVEMBER 2026

Today's edition is dominated by escalating tensions between global powers, with technology at the center of geopolitical conflicts as China faces accusations of espionage while simultaneously innovating in traditional culture, and artificial intelligence emerges as both a technological advancement and a source of concern among world leaders.

ECONOMY AND POLITICS

Bloomberg Politics: Xi-Trump-Putin Meeting Raises Concerns About Great Power Coordination

BLOOMBERG POLITICS · SINGLE SOURCE

Leaders of three dominant military powers met at Yalta in 1945 to craft a plan for global stability or conspire to divide the world. This meeting echoes historical concerns about powerful nations making decisions that affect global stability without broader international input.
