MARXIST PHILOSOPHY OF SCIENCE:

The Newspaper

WEDNESDAY, 18 NOVEMBER 2026

Today's edition is dominated by the escalating tensions and rapid advancements in artificial intelligence, with Anthropic's ambitious plans to capture $30 trillion across multiple sectors and its risky cash flow situation drawing significant attention, while geopolitical shifts include France's military deployment in Ukraine and a Trump-Xi meeting in Shenzhen ahead of a three-way summit, alongside technological breakthroughs like humanoid robots in China and leadership changes at Nvidia.
