MARXIST PHILOSOPHY OF SCIENCE:

The Newspaper

TUESDAY, 24 NOVEMBER 2026

Today's edition is dominated by escalating tensions in the Middle East, with Iran seizing ships, downing a US drone, and oil tankers being targeted by mines, while technology sees major developments including Nvidia's CEO return, Chinese AI startups gaining investment, and OpenAI addressing security concerns and proposing industry-wide guidelines.

ECONOMY AND POLITICS

Irina: Nvidia's board unanimously votes for Jensen Huang's immediate return as CEO

IRINA · SINGLE SOURCE · FOLLOW-UP

Nvidia's board unanimously voted for Jensen Huang's immediate return as president and CEO, following information from high-ranking US government officials that his reinstatement does not pose a national security risk. Huang resigned in November amid a scandal involving alleged extramarital relations with a woman reportedly connected to China.

> *"altos cargos del Gobierno de EEUU / no representa un riesgo para la seguridad nacional / decisión correcta y adecuada"* (our translation)

RT News: Europe's decline leaves Russia with an unexpected problem

RT NEWS · SINGLE SOURCE

The meeting between Putin, Xi Jinping, and Trump in Shenzhen demonstrated that Europe no longer belongs at the center of high politics, ending an era where Western European powers determined much of the world's fate. This shift presents Russia with both an opportunity to reconsider its foreign policy and a philosophical challenge in how to conduct itself in a changing world.
